# 1 Changelog

## 1.1 Domain services

### 1.1.1 LDAP ACL changes

- A new LDAP ACL was added in the master ACLs to grant UCS@school Slave DCs access to WMI filter objects ([Bug #33983](#)).

### 1.1.2 Univention S4 Connector

- Synchronization for WMI filters gets enabled by default ([Bug #33984](#)).

## 1.2 Univention Management Console

### 1.2.1 Wizards

- Usernames (and other attributes) already used are blocked by the wizard. This test did not search for exact equality but for substrings which is too strict in most cases. This has been fixed ([Bug #33559](#)).
